

Tactical Specifications

This vehicle can be supplied in two models operating on gasoline and diesel fuels, and provided with various rotary cupolas, light and semi-light weapons. This vehicle is light weight and provides armour protection up to level B6 and withstands 7.62 bullets, making it ideal for ambush, escort and operation across the frontier lines. Also, its up to date appearance and proper dimensions provide police with capability to perform operations inside cities.

Options can be mounted on vehicle

- Military collapsible seats
- GPS antenna
- Various stationary and rotary cupolas
- Weapon rack
- Various cupolas with low and high glass
- Capability to mount various night vision devices and telescopic sights
- Capability to mount various upward ramps
- Rear and front view cameras with internal memory
